NOMINATION AGREEMENT FOR ARTIFICAL INSEMINATION 2024

This agreement confirms the reservation to the stallion **Nalegro** (hereinafter referred to as the "Stallion") for the 2024 breeding season by the owner or lessee of the mare who places this order (hereinafter referred to as the "Owner"). Owner hereby agrees to breed the named mare on this order (referred to as the "Mare"). Breeding will be done by using the **chilled semen** supplied by Van Olst Horses via Stallion AI Services (hereinafter referred to as "SAIS"), whilst available. Should chilled semen for any reason not be available, then frozen semen would be supplied instead, 1 dose (2 straws) to be dispatched one at a time.

Terms and conditions:

- This semen is for use within conventional Artificial Insemination or Embryo Transfer cycles only and use of the semen for ICSI, or any other advanced reproductive techniques, is not permitted.
- All the semen purchased under this contract must be used on the mare nominated above.
- Breedings being purchased for use in Embryo Transfer or advanced breeding programmes are entitled to one pregnancy only. If multiple pregnancies are achieved from the same flush or procedure, the **full stud fee** will be charged for each additional pregnancy on confirmation of a heartbeat.
- The stud fee **does not** include health papers and semen distribution fees, please request these prices separately.
- The Owner understands that this is a non-refundable, non-transferable stud fee and that no refund will be given under any circumstances.
- Chilled semen will be shipped from Van Olst, The Netherlands, for delivery between **Tuesday and Saturday** inclusively, subject to availability.
- **All chilled semen orders must be placed no later than 7.30am (UK time) in the morning and dispatched for a next working day delivery, subject to availability. Please select "IMPORT Van Olst, Netherlands..." at check out. SAIS recommend for the Owner to confirm their order in the afternoon, the day before the semen needs to be collected and dispatched, to allow plenty of time for the additional required health paperwork to be processed.**
- Chilled semen can be sent a maximum of 2 times per cycle, per mare.
- All chilled semen shipments will be sent on a next day before 12 noon service with UPS Premier Gold Healthcare, if available to your delivery postcode, otherwise it will be an end of next working day delivery. Stallion AI Services and Van Olst Horses hold no responsibility for failed or delayed shipments.
- Should no pregnancy be achieved in the nominated breeding season, the Owner may use the stallion the following season on the same terms on the condition that a veterinary certificate is provided to confirm that the Mare was not pregnant.
- VAT will be applied at the standard rate of 20% to any fee charged.

This contract is 24 Hour Live Foal Guarantee (LFG) – For Fresh/Chilled and Frozen Semen Live Foal Guarantee (LFG) means a live foal at birth after 24 hours. If you lose the pregnancy or foal before 24 hours of birth, you are entitled to have a free return the following year and you can order unlimited number of times to achieve one pregnancy. In order to carry the stud fee over to the following year, the Owner would need to provide a "Not In Foal" certificate from their veterinarian. Should chilled semen for any reason not be available, then frozen semen would be supplied instead, 1 dose (2 straws) to be dispatched one at a time.

Covering Certificate Registrations are available for the following studbooks:

Anglo European Studbook (AES), Warmblood Breeders Studbook UK (WBS), British Hanoverian Horse Society (BHHS), Breeders Elite, Irish Sport Horse (foals registered in Ireland only).
